Attendance:
    Eric
    Shuhe
    Alex
    Jacob

What has been done:
    Prototype UI almost done, needs a few more elements for level selection and control
    Requirements almost done, needs refinement

What needs to be done:
    Eric working on description, overview and purpose
    Everyone: fill in the gaps of SRS for function and constraints
    Eric will compile everyone's work into one readable document

Milestones:
    Prototype UI polished by wednesday
    SRS finished by wednesday
    Fix/edits to website by Friday to correct for all aspects of grading
    Add all new documents and links to website by Friday
